Dozing Driver Is Injured In Crash

Calvin L. Harbaugh, 50, Blue Ridge Summit, suffered lacerations of the right eye and cheek and contusions of the arms and legs when his car ran off the Sunshine Trail, near Fountaindale, Thursday evening at 5:15 o'clock.
State police, who brought a charge of reckless driving against Harbaugh before Justice of the Peace Roger Myers, Hamiltonban Twp., said the Blue Ridge Summit man fell asleep while driving and his car smashed into an embankment, then veered out into the road. Damage to the vehicle was estimated at \$700.

2 LOCAL WOMEN TO BE HONORED FOR SS SERVICE

At the 97th annual convention of the Pennsylvania State Sabbath School Association, held in Williamsport, October 21-23, Miss Margaret C. Howard and Mrs. Earl J. Bowman, teachers in St. James Lutheran Sunday School, received recognition for 50 years of service as Sunday School teachers.

Unable to attend the convention, the medals which are given in recognition of this service were given to the president of the Adams County Sunday School Association for presentation to them at some service in their home church.

This service of recognition will be held Sunday morning at the regular Sunday School service at 9:30 o'clock. James D. Shaffer, of York Springs R. D., president of the county association, will make the presentation.

113 Years Service
Miss Howard began her teaching in the Sunday School at the First Congregational Church, Bellevue, Ohio, in 1900. Moving from there in 1903 to Mechanicsburg, she taught there until coming to Gettysburg in 1905. Since then she has been a regular teacher at St. James and is still teaching a class of women. At various times she taught at the Fairview Sunday School and at the Presbyterian Church, Hunterstown, serving as a substitute teacher or a regular teacher when the sessions were held in the afternoon.

Mrs. Bowman began her teaching experience in her home church, St. Paul's Lutheran, Millersburg, Pa., in 1905. She served there until her marriage to the (Continued On Page 3)

FCB RENAMES W. C. JESTER

W. Clayton Jester, Biglerville, and Roland N. Benjamin, of New Cumberland, have been re-elected to the seven-man Farm Credit Board of Baltimore for three-year terms, beginning January 1, according to an announcement by Hugh S. Mackey, general agent, today. Benjamin was re-elected by agricultural cooperative associations which are stockholders of the Baltimore Bank for Cooperatives; Jester was re-elected by the national farm loan associations in the Second Farm Credit District. As such, they will serve as ex-officio members of the board of directors of the Federal Land Bank of Baltimore, the Federal Intermediate Credit Bank of Baltimore, and the Baltimore Bank for Cooperatives. These institutions make long and short-term loans to farmers and their cooperatives in Pennsylvania, Maryland, Delaware, Virginia, West Virginia, and Puerto Rico.

Both Benjamin and Jester have been identified with agriculture for many years and have served on these boards since 1954.

Mrs. Elizabeth Gilbert, 104, Is Oldest Countian

Adams County's oldest resident, Mrs. Elizabeth Gilbert, Cumberland Twp., is 104 or 105.

There probably was never a record of birth for Mrs. Gilbert, who for many years resided in Bonneauville (she is a native of Pikesville, Md.), but grandnieces estimate, from the age of their grandfather, that she is 105. Mrs. Gilbert says she was 104 years old on Washington's birthday, February 22.

Physicians at the Warner Hospital who operated on the elderly woman May 12, 1958, said she apparently was "more than 100" and were amazed at her health and physical condition. They said she is the oldest person ever to undergo an operation at the local hospital.

"Happy, Contented"
Her husband, the late George Gilbert, died years ago, and a son passed away at the age of 69 some time ago. Her only living relatives are three grandnieces residing in Baltimore.

LIONS HELPING WITH CANCER SURVEY HERE

Littlestown and Fairfield Lions Clubs have supplied researchers for the cancer prevention study being conducted in Adams County under auspices of the local unit of the American Cancer Society.

Mrs. Henrietta Blocher, secretary for the society, said 50 researchers have been secured from the Littlestown and Fairfield Lions, the Gettysburg Kiwanis Club and individuals in Biglerville and Arendtsville.

Each of the researchers is visiting ten families in which there is at least one person over 45. When they secure the cooperation of the family members, the researchers leave detailed questionnaires to be filled out by the members of the families. Those questionnaires are given a code number and sealed. The local researchers never see the answers to the questionnaires which go into a huge series of such questionnaires being secured throughout the nation for the American Cancer Society.

To Cover Six Years
The researchers agree to go back from time to time during the next six years to visit the families on their list and secure additional information.

From the nationwide survey, and its continuation for the next six years, Mrs. Blocher said, the American Cancer Society hopes to obtain some answers concerning the causes of cancer.

"The purpose of this study is to learn as much as possible about the exposures and habits of a very large number of people. These people will then be followed for six years to determine whether any develop cancer. We hope this will yield important clues to a number of possible causes of cancer. The final goal is to prevent cancer insofar as possible by reducing exposure to the responsible factors. It is known that death rates from cancer of certain types vary greatly among people of different races, religions and geographic areas. This may be due to differences in exposures or habits. If we can determine the reasons, we may be able to tell people how to reduce the risk of getting cancer."

Need \$890 For Xmas Lights

George Miller, president of the Retail Merchants Association, says \$890 is still needed to reach the goal for the Christmas decorating program.

According to Miller, merchants have contributed \$1,480, while \$130 has been donated as a result of letters mailed to area residents. The total contributions are \$1,610. The amount needed is \$2,500.

The Chamber of Commerce made an appeal to businessmen and citizens October 19, when it voted \$100 toward the program. At that time it urged "contributions from every resident to make this year's decorations the finest and most extensive we have ever had."

The decorations will include multi-colored lights in addition to a number of distinctive decorations and silver and gold metallic streamers.

Miller said all donations will be publicly acknowledged.

U. N. OFFICIAL CITES AID TO ASIAN NATIONS

C. V. Narasimhan, United Nations undersecretary for special political affairs, spoke on "International Aid to Asian Countries" before a student convocation today at Gettysburg College. The official serves directly under Dag Hammarskjold, secretary-general of the international body.

Narasimhan discussed both bilateral assistance to Asian countries and the multilateral program of aid "under the umbrella of the United Nations and its family of specialized agencies, especially the International Bank for Reconstruction and Development."

Bilaterally, the "predominant role" of the U. S. as a member of the Colombo Plan was singled out by the high U. N. officer. The contributions of Commonwealth countries such as Australia and Canada are also significant, he said.

Want To Help Each Other
Narasimhan pointed out a "growing desire" by Asian countries to help each other in capital aid and technical cooperation. He noted also recently begun economic assistance to some Asian countries by Russia, Red China and Czechoslovakia.

Multilaterally, he said, the United Nations has been a "vital catalyst" in stimulating bilateral assistance and in helping accelerate national efforts by the Asian countries themselves.

The U. N. undersecretary stressed "vast possibilities for increased assistance to underdeveloped countries, such as those of Asia, which arise from prospects for general world disarmament." Huge sums saved by reduction or cessation of armaments manufacture could give "an unprecedented spurt" to Asian economic development, he said.

Disarmament, if it comes, therefore will mean that the gap between the standard of living of the developed and the underdeveloped countries will begin to close at a much more reassuring rate as against the present position of increasing inequality, Narasimhan declared.

He also emphasized the "preponderant" role of the United Nations in contributing to United Nations programs side by side with its own bilateral direct assistance to Asian countries.

Pitzer Takes Part In Panel At Erie

John H. Pitzer, president of the Adams County Farmers' Association, was a member of a four-man panel that met in Erie Tuesday to conduct a political seminar in connection with the annual convention of the Pennsylvania State Farmers' Association.

Members of the panel agreed that the modern role of a general farm organization has "a much stronger political flavor than it did 20 or 30 years ago."

It was concluded by the panel that "a bipartisan organization cannot justifiably endorse individual candidates for public office in a general election."

The seminar was held as a means of launching the Farmers' Association's political energy program, to be known as "PEP."

Count Military Vote This Afternoon

The final vote is scheduled to be added this afternoon to the ballots cast at the November 3 election. Forty-one votes, 39 cast by the military and two by veterans in hospitals, are to be counted, in accordance with the law, by the election board this afternoon and the totals added to the figures reported in last week's "official count." The delay in counting the military ballot is set to permit return of votes from military persons overseas.

As in the former official count, the vote this afternoon will be counted by the judges who are serving as the election board this year because the commissioners, who normally have that duty, are candidates for office.

25 Inches Of Snow Falls, 22 Below Zero In Montana

DENVER, Colo. (AP)—Intense cold that plunged temperatures to below zero in many places locked the Rocky Mountain states in a wintry grip today on the heels of a 25-inch snowfall that buried Montana.

The temperature was 22 below zero today at Cut Bank, near the Montana-Canada border. It was 18 below at Great Falls and 13 below at Helena, Montana's capital city, which bore the brunt of the blizzard. The coldest temperature ever recorded at Helena was 37 below zero.

Sub-zero readings were common from Montana south to Colorado along the eastern slope of the Rockies. The Continental Divide formed a barrier that moderated temperatures west of the mountains.

Urges Early Reservations Of Lunch Tickets

Reservations for the Lincoln Fellowship luncheon at the Hotel Gettysburg next Thursday noon may be made at the hotel, Dr. Frederick Tilberg, president of the fellowship, said today.

"Local residents who plan to attend the luncheon to hear Congressman Schwengel and Carl Sandburg, world famous Lincoln biographer, speak are urged to make their reservations early," Dr. Tilberg said.

"We expect a great number of Washington and other out-of-town residents, Lincoln students, to attend the luncheon and with the seating capacity of the hotel dining room limited to slightly more than 200 it would be advisable to reserve tickets early. Tickets are \$2.50 each. The luncheon will be served at 12 o'clock," he added.

TELLS C. C. OF TAX BENEFITS IN THIS AREA

"Starting January 1 the social security tax rate will be increased from the present 2 1/2 per cent of wages paid by employers and employees to three per cent by employers and a like amount by employees," said George L. Savidge, field representative of the Chambersburg Social Security office, at the annual membership and ladies' night dinner meeting of the Chamber of Commerce at the Hotel Gettysburg Thursday evening.

"The present rate of 3 1/4 per cent of net earnings paid by the self-employed will be increased to 4 1/2 per cent of net earnings."

"Since its inception in 1935 the social security program has grown phenomenally, both in coverage, beneficiary categories and the amount of benefit payments. Starting as a retirement program for the protection of the aged wage earner, it has now become a family insurance program protecting not only the wage earner but the self-employed as well in old-age, in total disability and the family in case of the worker's death."

County Payments

"As of February, 1959, old-age, survivors and disability insurance monthly benefits were being paid in Adams County at the rate of \$2,650,000 a year."

"This is an increase of about 26 per cent over the last available figures."

"Payments to a retired worker with no dependents receiving benefits averaged \$67.50 a month nationally in February and to a retired worker (Continued On Page 4)

COF CELECTS 3 DIRECTORS ON THURSDAY

Attorney John A. MacPhail, Charles Bender and Julian Estep were elected directors of the Gettysburg Chamber of Commerce at its annual membership meeting Thursday evening at the Hotel Gettysburg.

Estep, who has served as president of the Chamber for the last two years, was re-elected. Bender had previously served as a director, but had resigned the post while serving as an officer of the Retail Merchants Association. MacPhail is president of the Rotary Club and past commander of the Albert J. Lentz American Legion Post. This will be his first term as a director.

The newly-elected directors and the six directors whose terms did not expire this year will meet in the near future to elect officers and reorganize.

Estep Cites Progress

President Estep told the group: "Your chamber has made excellent progress this year, although its accomplishments have been little publicized, nor could they be too widely publicized. We have spent the year in establishing a firm organization based on operating committees."

"For many years we have sought to work through a board of directors, but a board is too few to secure the accomplishments we would desire. The help of every member is needed. This year we established operating committees which have begun to really function. They have begun the ground work for a number of projects of which we will hear more later. I urge you to give of your time if called upon to serve on a committee. And I urge that we think about more funds for the next few years when we can be pretty sure of being called upon to fill a number of obligations in connection with the forthcoming anniversary."

Entertainment at the program was provided by the Acroeters of Biglerville.

5 "NEIGHBORS" OF 5 NATIONS SPEAK AT YWCA

Five "neighbors" from five countries told of their costumes and traditions Thursday evening at the YWCA in an International Round Table in observance of World Fellowship Week.

A native of Honolulu, Hawaii, Mrs. Ames Moyers, told of her native dress designed for the hula and of her Chinese ancestry. She speaks three languages, Chinese, Hawaiian and English, and was trained in mission schools and at a university in Hawaii. She lives in York Springs.

Mrs. D. L. Radsma, Holland, told of the similarities between Holland and the United States in customs and attitudes. She is fluent in French, German, Dutch, and English and explained that because of the geographical location of Holland a knowledge of these languages is essential. She is the wife of Dr. L. Radsma, a local physician.

Speaks 4 Languages

A resident of Gettysburg for several years, Mrs. George Lazos is a native of Greece. She came to the United States following her marriage. She was born in Greece but moved to Bessaria when she was seven years old. She speaks Russian, Rumanian, Greek, and English. Her husband is a restaurant owner.

While not a native of India, Mrs. P. S. Akolekar has adopted that country by marriage. She explained the educational pattern in that country stating that they educate their children very young with a young man graduating from college at the age of 18. The arts, culture and languages are most stressed. She is the wife of a member of the faculty at Gettysburg College.

Exchange Student Talks

The youngest and newest member of the panel was Masako Kajimura, a high school exchange student from Japan. "Missie" explained that life in Japan today is not too different from that in the United States. The sports are the same with the exception of football and the dress is the same except for ceremonial occasions or holidays. She explained that the students in Japan are required to study three years of English. Educated in Methodist (Continued On Page 2)

CHEER NIXON IN MENTION OF PRESIDENCY

WISCONSIN RAPIDS, Wis. (AP)—Vice President Richard M. Nixon continues what he calls a nonpolitical tour today. But politics, not to mention cranberries, is expected to bob up all along the way.

He goes to Appleton, Wis., for a mid-morning panel discussion on world problems at Lawrence College. Then tonight he is in Indianapolis for the national convention of Sigma Delta Chi, a journalism fraternity. Nixon will make a talk and answer questions.

He got a big cheer Thursday when Rep. John Byrnes (R-Wis.), in referring to Nixon said:

Nixon Just Grinned
"I wish this meeting was held a year and a half from now and then we might have the President of the United States with us."

Nixon, who never has said he is a candidate, just grinned.
It was a bad time for a top Republican to come to this part of Wisconsin. It's a big cranberry center, and the administration has warned that some cranberries might be contaminated with a weed killer that has caused cancer in rats in laboratory tests. Nixon gallantly came all out for cranberries.

"I certainly expect to have cranberries for both Christmas and Thanksgiving," he said at a news conference.

Worley Proposes Change In Rules

Assemblyman Francis Worley of Adams County on Thursday introduced an amendment to House rules which would prevent a vote on a bill or amendment without first having the measure listed on the House calendar. He said he took the action after a quick unscheduled House vote was attempted earlier this week on a sales tax question.

Mr. Worley was one of 10 members of the House voting against a bill to pay the House members \$6,000 in salary instead of the present \$3,000 with an expense account of up to \$3,000. The measure passed.

The county representative said today he has a letter from the Pennsylvania Library Association thanking him for his support to a package of bills which passed the House earlier this session intended to provide better public library service in the state. The bills now are in committee in the Senate.

FRANCE WINS ON TEST VOTE

UNITED NATIONS, N.Y. (AP)—A majority of the United Nations Thursday night asked France to call off her planned atomic test in the Sahara Desert but the vote apparently was just short of the total necessary to put the U.N. Assembly on record against the test explosion.

The U.N. Assembly's Political Committee, on which all 82 U.N. members are represented, approved a resolution calling on France not to hold the test by a vote of 62-26 with 10 abstentions. But this was two votes short of the two-thirds majority of those voting necessary to secure adoption of the resolution in the Assembly.

The outcome of the vote was a technical victory for France, thanks to the two-thirds rule. It was obvious, however, that the Soviets and the Asian-African sponsors of the resolution would stage a major propaganda campaign contending that the majority of the U.N. oppose the French atomic test.

SHIP CLEARED A FEW HOURS BEFORE BLAZE

HOUSTON, Tex. (AP)—A cargo inspector told Coast Guard Probers Thursday he gave the SS Amoco Virginia a clean bill of health a few hours before fire and explosions swept the vessel.

Inspector James H. Edmonds said he signed certificates verifying its tanks were not leaking and that three grades of petroleum fuels were flowing into prescribed tanks.

Other witnesses described how flames spread from waters of the Houston ship channel and engulfed the vessel and several barges tied up alongside.

One told of a storm which battered the ship off the Gulf Coast the night before.

Four Explosions
At least four explosions followed the fire early Sunday. It killed seven and sent 25 to hospitals. An eighth victim, a fireman, died Monday after falling inside the smoldering hulk.

"I saw a flame forward of the barge," Seaman Joseph R. Daley, 37, of Seattle, told the investigating panel. "The flames went from the barge back to the Amoco Virginia."

The first witness was Edwin R. Kremer, 37, the tanker's third mate from Drexel Hill, Pa. He repeated earlier statements that he smelled a strong odor four hours before the Virginia caught fire.

"Do you think it was inflammable?" asked Rear Adm. Carl B. Olson of New Orleans. "All odors aboard tankers are inflammable," Kremer replied. Kremer said the tanker took a pounding in rough weather on the Gulf of Mexico some 14 hours before entering the Houston ship channel last Friday. He did not know if the tanker was damaged in the storm.

He commented about the odor while in the cabin of Julius Spain, the second mate from Corning, Ark., shortly before the fire, Kremer said.

Olsen asked if he had detected the same odor previously while on a tanker. Kremer said he had not. "This smelled like mildew and sour magazine paper," he added. Kremer said he ran onto deck when he heard Spain yell, "She's on fire, let's go." He jumped to the dock and started running.

There were no injuries.

WIFE TAKES LIFE; METHOD KILLS BROOD

SALEM, Ore. (AP)—A Salem housewife, who had been unhappy since her divorce, tucked her three children into bed and then committed suicide. She accidentally killed the three children, too.

That's how Coroner Charles Edwards explained the deaths of Mrs. Frank B. Nicholls, 34, and her children, Gregory, 12, Julie, 10, and Melissa, 8.

Edwards said the attractive blonde divorcee parked her station wagon in her closed garage and used a hose to pipe poisonous monoxide fumes from the exhaust to the inside of the vehicle. The fumes killed her and were sucked by an air conditioning system into the upstairs where the children were sleeping.

SNOW DUE IN PENNSYLVANIA

By THE ASSOCIATED PRESS
Up to four inches of snow are forecast to fall on northern tier counties of Pennsylvania today, the U.S. Weather Bureau said.

The snow was expected to move into the region with a general weather pattern spreading over the entire state. In other regions the possibility of snow was expected to hinge on temperatures.

But the Weather Bureau said driving conditions in any event would be hazardous.

Motorists Warned
"Motorists planning trips through that (northern) portion of the state today should be prepared to battle the elements," said the government forecasters.

"Cloudy conditions will prevail over all sections of the state tonight with some rain or wet snow falling over most sections."

The expected heavy snow had not yet materialized in the north by sunup, though spot reports indicated leaden skies and dropping temperatures. There were some flurries in northwestern counties, but no accumulation.

Ike Welcomes Mamie Today

AUGUSTA, Ga. (AP)—In rain that almost matched the spectrum, President Eisenhower turned out today to welcome the First Lady to the South.

Mrs. Eisenhower came down from Washington by train. She peered up at gray skies and told a welcoming delegator, at the station: "If the sun doesn't shine, Ike is going to be mad."

"Don't worry," her husband assured her. "It will turn off."

Weather Mild
The weather was in the mild, high 50s in spite of the overcast. And Eisenhower was ready for an afternoon of golf, in apparel that grew progressively more colorful from bottom to top:

Black slippers, grey slacks, grey and tan plaid shirt, gold figured necktie with the green and red insignia of the Augusta National Golf Course, brilliant green Augusta national blazer, brown felt hat.

Mrs. Eisenhower was looking sprightly for someone who will be 63 years old Saturday. The President is planning a small, private birthday dinner for her.

A White House limousine whisked the President and Mrs. Eisenhower from the station to the golf club Mrs. Eisenhower went to their cottage, the President to his office above the pro shop to handle some paper work from Washington.

D. A. QUILTS AND ADMITS \$11495 LOOTING AS J. P.

WEST BEND, Wis. (AP)—A county district attorney—a police victim and the father of five children—resigned Thursday saying he had misappropriated \$11,495 while a justice of the peace.

The 39-year-old prosecutor, Deane R. Bascom, gave up his job, offered a check making restitution for the full amount, but didn't say why he took the money. Newsmen asked him why. He refused to say anything.

In the wake of the announcement, Gov. Gaylord Nelson quickly appointed a prosecutor for Washington County, only a few miles from Milwaukee but an area that has maintained its rural atmosphere.

Also an assistant attorney general was sent here from Madison to make an investigation, and a representative of the state auditor said that the books of all justices of the peace in Washington County would be checked.

James H. McDermott of the attorney general's office said the question of prosecution was up to the new district attorney, Henry Renard. The 39-year-old West Bend attorney said, "I don't know enough about the shortage yet." Justices of the peace are paid a percentage of the fines they collect.

ANNIVERSARY OF APALACHIN

NEW YORK (AP)—Something was afoot up on the hill. Three big cars had pulled in and parked beside the imposing Barbara mansion. Police were curious. They posted a watch.

That was two years ago today near Apalachin, N. Y.

By next day, the number of expensive cars gathered there had grown to 20, and police finally moved in to find out what was going on. They, and other authorities, still are wondering.

Sixty-three gangland figures and friends convened that day at the country estate of the late Joseph Barbara Sr. Police questioned them, took their names, but had no basis for further action.

There was no gunplay; no overt crimes committed. It was, on the surface, just a party of pals. Authorities since have called the affair an underworld convention.

Last spring, a federal grand jury indictment named all of them—27 as defendants and 36 as conspirators—and charged they had plotted together to thwart the law and conceal the purposes of the meeting.

SCIENCE WILL BE EMPHASIZED IN NEW OXFORD

Science will be emphasized, underscored and pointed up during the current year at Lower Adams Joint Schools, New Oxford.

Principal Selon Dockey's application for participation in the Traveling High School Science Library program has been accepted by the American Association for the Advancement of Science, and 200 outstanding, evaluated, up-to-date "best seller" type books in the sciences and mathematics will circulate to the school library from Washington, D. C. All branches of science will be covered and the reading level will range from books the brilliant junior high school student will find interesting to some that will give the outstanding high school senior a taste of advanced work. The collection lists for more than \$1,000.

The idea for this experimental program, aimed at interesting more students in scientific and technical careers, originated with the National Science Foundation, and agency of the Federal Government established in 1950 "To promote the progress of science."

Oldest Scientific Society

The AAAS was organized in 1848 and is the oldest national scientific society. It is a federation of 279 scientific and professional societies and has over 56,000 individual members. It accepted the NSF grant, and in 1955 selected and administered the first library of 150 books which circulated to 66 schools. From this modest beginning the program has expanded until during 1958-59 the library went to about 1,400 schools in every state in the union, Hawaii, Alaska, the Canal Zone, Puerto Rico, the American Community School of Paris (France), and to U. S. Army dependents' schools in France, Germany, Italy and Okinawa.

The 200 books are circulated for a period of one school year. The books in their traveling cases are on display in the school library, and representatives of PTA, civic groups, service organizations and interested individuals are invited to examine them.

1,500 LURED TO KENNEDY

MARSHFIELD, Wis. (AP)—Sen. John F. Kennedy (D-Mass) drank a cranberry juice toast Thursday night and drew a capacity audience in a Republican stronghold while Vice President Richard M. Nixon was speaking only 30 miles away.

The senator warned that a solution of the Soviet problem is at least 30 years away and blasted again at the administration farm program. He still didn't say he was a candidate.

Kennedy's latest tour, which includes seven stops, will be climaxed tonight when he delivers the keynote address at the state Democratic convention in Milwaukee.

Delegations came from as far as 150 miles and all areas of the state to hear Kennedy at the rally. The crowd was estimated at 1,500, called by backers the largest Democratic gathering in the history of the 7th district.

"IN RETURN"

How can I make payment, darling . . . for what can't be bought or sold . . . what can I give for the blessings . . . that are mine to have and hold . . . in return for smiles you give me . . . treasured, priceless works of art . . . I can only bring you gladness . . . with the smiles that I impart . . . for your kisses sent from heaven . . . in return I do my best . . . to imprint your lips with kisses . . . that my heart has truly blessed . . . for your faith without an equal . . . I will always faithful be . . . adding hope tempered with vision . . . that will mold the future's key . . . your sincerity and kindness . . . like an angels' sweet caress . . . I repay with deep devotion . . . meant to bring you happiness . . . but although my gifts are righteous . . . sure as stars that shine above . . . they are only partial payments . . . in return for your true love.

U. S. SWIFTLY ASSURES INDIA OF 'BACKING'

By JOHN M. HIGHTOWER

WASHINGTON (AP)—The United States swiftly assured India of its moral backing today in a border dispute with Red China. India says the Chinese forcibly seized some of her territory.

Secretary of State Christian A. Herter, who first told a news conference this country was taking no sides, later issued a statement saying the Red Chinese, in using force, were "wholly in the wrong." This word was given to the Indian Embassy here and dispatched to the U.S. embassy in New Delhi.

President Eisenhower is scheduled to go to New Delhi on a goodwill mission within a month. Officials were afraid that unless Herter's remarks were clarified, resentment against the United States might sour the President's visit.

Not Taking Sides

Replying to news conference questions, Herter said the United States has no way of knowing directly whether India or Red China is right in the disputed territorial claims, and has taken no sides on the issue.

But 35 minutes later he issued a formal statement saying:

"The questions asked me on this subject seemed to me directed at the legal rights along the borders, and my answers accordingly related only to the legality of the rival claims. There is the further and more important point that, whatever may be the merits of a dispute, force must not be used to settle it. The Chinese Communist regime has clearly used force and, in this respect, is wholly in the wrong."

Old Controversy

In taking this position, Herter put the United States more in line with Indian Prime Minister Nehru's policy which calls for settlement by negotiation and condemns the use of force.

At issue is 57,000 square miles of territory which has long been in controversy as to its real ownership although for many years it has been under Indian administration.

LOCAL STEER NAMED CHAMP SECOND TIME

HARRISBURG (AP)—An unusual double triumph was scored by a Westmoreland County breeder as Pennsylvania exhibitors ran up an impressive string of victories in the final day of judging at the state livestock exposition.

Mr. and Mrs. E. L. Paxton's Paxfield Farm, Greensburg, showed the grand champion polled Hereford bull and cow Thursday.

In doing so they scored over an outstanding list of steers which had won prizes in such shows as the American Royal in Kansas City, the International in Chicago and the Ohio State Fair in Columbus.

Falklands Farm of Schellsburg, Bedford County, was given the premier exhibitor's award for having the top animals in nine classes. Five were bull classes. The Falklands stock excelled in the female group as the best get-of-sire (four animals sired by one bull), best pair of calves and best six head.

Named Champion Again

Millcreek Valley Farm, Johnstown, won a class championship for senior yearling heifers. A junior yearling steer raised on President Eisenhower's farm by George E. Allen and B. G. Byers, Gettysburg R. 2, was champion in his class. This was a double triumph for the animal which last Monday was named champion steer on foot.

Harry Wareham, Everett R. 1, Bedford County, exhibited the grand champion Carcase barrow on the rail. The lightweight Hampshire barrow had placed first in his class Monday when the hogs were judged live and was reserve champion on the on-foot show.

Other Pennsylvanians showing champions were: John McDowell, Mercer, pen of five steers (August); Frey Bros., Quarryville R. 2 Lancaster County, reserve Carcase steer; Russell Cornbower, New Freedom, York County, reserve Carcase barrow; Oren A. Wright, Greenwood, R. 2, Indiana, champion Rambouillet ram and ewe; Pennsylvania State University, grand champion polled Shorthorn bull; reserve polled Hereford bull, Penn State and E. W. Barr, Winchester, Va., (jointly); Ray and Gerald Clodfelder, Greencastle, Franklin County, reserve polled Shorthorn female; Ford Cooper, Reynoldsville, Jefferson County, champion Hampshire sow, and Strawbridge & McCleary, Stewartstown, York County, reserve Hampshire boar.

District Attorney Speaks

District Attorney Daniel E. Teeter was the speaker at the dinner. He told the group: "It is fitting that American Education Week and Youth Appreciation Week are celebrated concurrently. Just as the farmer prepares the soil, fertilizes and cultivates his crop that he might have a good harvest, so the schools, in a way, are farms on which are grown the citizens of tomorrow, the most precious crop we have."

"There are those who complain of youth. There has always been criticism of youth. About 4,000 years before Christ an Egyptian inscribed on a stone tablet that 'Our earth is degenerate in these latter days. Children no longer obey their parents. The end of the world is near.' So the criticism has always been there. But when you hear someone say the youth of today are no good and that they are all juvenile delinquents, tell them that only about three per cent are delinquent, and in too many cases we adults are the causes of this delinquency."

"I'm proud of today's youth and I think as adults we should recognize that 95 per cent or more of your youngsters will grow up to be the outstanding citizens of tomorrow."

President Carroll Martin presided at the Optimist dinner. Clyde Sanders, Fairfield R. 1, was admitted as a new member.

When the Rev. Mr. Bowman received a call to become pastor of St. John's Lutheran Church, Steelton, Pa., in 1919, Mrs. Bowman again assumed the duties of a teacher there. In 1923 she came to Gettysburg to St. James and Mrs. Bowman has served as a teacher here ever since. Mrs. Bowman now teaches a class of women.

In addition to their service as teachers, both ladies have been active in other fields of church work and still find time to take part in many activities at St. James.

Oil lamps, rare glass globes, a spire from the church before it was enlarged in 1891, an early pewter communion set and an ornate tin lantern from the earliest days of the church will be displayed. A set of posters will also present an appeal for the Zion endowment fund. Automobiles of various periods in American history will be displayed through the courtesy of local and nearby "Antique Auto Clubs."

Highlights Of Church History

Prior to 1854 Lutherans in the Fairfield community were associated with the Lutheran Church at Emmitsburg and Fountaldale. Travel in those horse and buggy days was slow and some had quite a distance to go. In 1854 it was decided to build a church in Fairfield. The cornerstone was laid September 10, 1854, with appropriate exercises with Dr. S. S. Schmucker, president of the Lutheran Seminary at Gettysburg, assisting, according to Miss Mary B. Weikert and Frank Moore in their history of Zion Lutheran Church, Fairfield.

With the new Lutheran Church conveniently located in Fairfield, attendance grew and the little church called its first minister and became associated with the Emmitsburg church and the Fountaldale church as a three-church charge. Many trials marked the growth of the new church but it enjoyed a steady growth until in November, 1888, it separated itself from the charge and became a single church, calling for the first time, its own full-time pastor.

Built Parsonage in '24

The present parsonage was built in 1924. The church was enlarged and renovated completely in 1891. This renovation more than doubled its size. In 1913 a Sunday School wing was added. Finally in 1949, the latest wing was added to the building. It houses a kitchen and general assembly room. The pipe organ was rebuilt in 1957 and a number of important building improvements were made at that time.

In July, 1863, the church became a hospital for the wounded following a battle near Fairfield. Strong boards were placed across the backs of the pews and covered with blankets. Both Federal and Confederate soldiers received the same care. Two army surgeons, one from the North and one from the South, remained to care for the wounded. A historical marker was placed there in 1942.

The members of the anniversary committee are Thomas L. Newman, Kenneth E. Hartzell, Ira E. McGlaughlin, Mrs. John E. Beard, Mrs. James H. Hammett, Mrs. Sam Musselman, Miss Helen McCleary, Miss Nancy Myers, Calvin F. Bream, James H. Hammett, Earl H. McGlaughlin and Frank M. Moore. The present pastor of Zion is the Rev. Otto Kroeger.

LICENSE FEE RAISE BEATEN

HARRISBURG (AP)—Chances for an increase in the \$1 annual drivers' license fee was in doubt today after the House rejected a \$1.50 increase approved by the Senate.

The administration had sought a \$2 annual increase to \$3 in the license fee.

After the measure was defeated 51-82 Thursday, House Democratic leader Stephen McCann said he would discuss the situation with Senate Republicans.

McCann said one remedy would be for the Senate to go along with a \$2 annual fee proposed by the House.

Republicans contributed the bulk of negative votes. Rep. Albert W. Johnson, House GOP floor leader, said his members did not want to support it in view of the primary elections next May, when candidates for the 1961 Legislature will be chosen.

Thanksgiving Dinner Prices Are Restricted: Thanksgiving Day meals in restaurants this year generally will cost the same as in 1943, but in no case may the charge for meals on the holiday exceed by more than 15 per cent the restaurant's regular prices for Sunday dinners of the same class. The Harrisburg District Office of Price Administration pointed out today.

All public eating and drinking establishments are now covered by nationwide selling prices as established by the national restaurant price regulation, which went into effect on July 31, 1944.

General Eisenhower Was In Gettysburg 26 Years Ago Today: London, Nov. 11 (AP) — As a great, bloody conflict ended 26 years ago this morning, doctors in a military hospital in the German town of Paderborn studied the case of a shell-shocked German corporal and debated whether to send him to a mental institution. They finally released the melancholy corporal as fit, and Adolph Hitler walked out into the bloody day.

At far-flung points elsewhere on the globe, these comparatively unknown men whom destiny had marked to shape the future of the world greeted the end of that war with a firm belief that only peace and prosperity lay ahead. They had never heard of Adolph Hitler.

In Washington, a young man named Franklin Delano Roosevelt, who was considered quite efficient around the Navy department where he was under-secretary, was convalescing from pneumonia.

In London, Winston Churchill stood at the window of his room looking toward Trafalgar Square. In Russia Joseph Stalin was in the process of planning a long-range program of reconstruction for the new Soviet Union — a quiet little man still in the background. In Germany Heinrich Himmler was trying to get enough gas to operate his taxi, a newspaperman named Joseph Goebbels was seeking employment, and Herman Goering was boasting of his feats as a combat pilot.

Dwight D. Eisenhower, the man destined to command all of the Allied armies against Hitler a quarter of a century later, was somewhat disappointed when he heard of the armistice because he had had no opportunity to get into combat. At 11 a. m. November 11, 1918, Eisenhower was at Camp Colt, Gettysburg, Pa., commanding a tank training school. Today these men who celebrated that peace of 26 years ago are locked in the world's greatest conflict with the corporals who escaped confinement in a mental home.

Today's Talk

LIFE'S EXTRAS

Many years ago I came across a small book, by Archibald Rutledge, entitled "Life's Extras." It is a stimulating book and one of those small, never-to-be-forgotten. I have several others by the same author, and all are good.

I fear that few of us have paid attention to the many extras that could have been ours, but which we let slip from our view. Often it is the little "Extras" that have been among the most inspiring and valuable as lessons in life, and important ones at that. It's the things of the "every-day" that we so many times neglect. It's the little things, and examples, that we walk right past from day to day that could enrich our lives.

I look out at the beautiful autumn, with its coloring and falling leaves, and I know I am in the midst of wealth. Great, towering trees all about me in my home garden. People pass it every day. There is no cost to any passer-by. The extras everywhere we go each day cost nothing but appreciation. There is beauty everywhere.

We are charged nothing for the sunlight, nor the stars at night. In fact all Nature is the heritage of the humblest human being. And there are more opportunities for people who will work, and inspire others to work, than at any period of our history.

Just think for a moment and compare today with a mere fifty years ago. The threat of war is the great blot on our civilization. But even war can be thwarted. It will take intelligence and courage to divert the path of war.

Tomorrow Mr. Adams will talk on the subject: "Self Discovery." Protected, 1959, by The George Matthews Adams Service

FAME

Fame is a fickle jade at best, And he who seeks to win her smile Must trudge, disdainful play or rest, O'er many a long and weary mile.

Nor must he work alone for her, Nor labor only for her cheers; For doing this, it may occur That he shall only reap her sneers.

But when he's ceased to care for self, And is content to work and wait For something better far than self, Fame welcomes him among the great.

Youth Beaten In Lover's Lane Dies

PHILADELPHIA (AP) — A 19-year-old youth dragged from his car and beaten in "lovers' lane" died in Mercy Douglass hospital Thursday.

Joseph J. Santucci, who was free on bail on a robbery charge, was unconscious until his death. Detectives had no chance to question him about the attack last night by unknown assailants.

Police said they believe a girl was with Santucci, and that she was driven away by the attackers. The beating occurred on a dead end road at an earthen marsh side in Philadelphia's southwest Eastwick section.

It is believed that Santucci may have been shot as well as beaten. **HARRISBURG (AP)** — A showdown on absenteeism in the house failed today by a vote of 122-35. The roll-call vote put a halt to a move started by Rep. E. J. Farbaugh (D—Cambria) to have unauthorized absentees forcibly brought to the session.

After the defeat of the motion, the house granted leaves authorizing the absence of 47 members. The past few weeks. Doubt was expressed that the Nazis can launch any sustained offensive with the rocket bombs. The Germans announced two days ago they had been using the rockets, known as "V-2" against London.

The prime minister said the rockets flying through the stratosphere going to a height of 60 to 70 miles. He declared the speed attained by the missile outstrips sound.

AP EXPLAINS BOYLE ACTION IN QUIZ PROBE

Editor & Publisher has asked The Associated Press for comment in connection with disclosures in the TV hearings last week in Washington involving some newspapermen. The following statement has been given to the magazine:

The Associated Press has investigated the circumstances under which one of its feature writers and columnists, Hal Boyle, received \$1,000 for making a personal appearance at a business dinner arranged by Max Hess, department store owner, in Allentown, Pa., in July 1955.

It is the long-standing and explicitly written policy of The Associated Press that no employee engage in any activity reflecting upon the integrity of The AP; nor may he in any manner by any act make suspect his or the organization's honesty and impartiality.

Misinterpret Work
The Associated Press has stated and it repeats, it is not enough for us within the organization to know that a staffer's outside interest or activities do not adversely affect his work for The AP. It is often a question of whether outsiders could misunderstand or misinterpret his work.

Every representative of The Associated Press shares the responsibility of safeguarding its reputation for honesty and dependability. What Boyle did violated this policy. He acknowledges a mistake in judgment in accepting the payment in the circumstances and has been severely reprimanded.

A careful examination by management of The Associated Press reveals to its satisfaction that the columns Boyle wrote in which he mentioned Hess—five times from 1951 through 1958—were newsworthy feature material. They were wholly unrelated to his presence at a store promotion enterprise featuring the presence of newspaper celebrities, concerning which he wrote nothing and following which there was no mention of Hess or his store in a Boyle column for more than two years.

"Outstanding Record"
Boyle's outstanding record of more than 25 years with The Associated Press includes a Pulitzer Prize for his reporting as a war correspondent in World War II, during which he began writing a daily human interest column. He did distinguished front line reporting in the Korean War, continuing his column at the same time.

For years, Boyle has been in demand as a speaker and for personal activities on his own time, frequently in response to requests from AP members. He has also on occasion received honoraria for speaking engagements.

Boyle affirms that he has "never written a line of AP copy for payment of any kind or form except the compensation" he receives from the AP. The AP is convinced that this is true and that Boyle, along with the rest of the loyal AP staff, is devoted to the integrity of its news report.

COULSON SAYS SCHOOLS NEED CITIZENS' AID

(Editor's Note: The following article was written in connection with Education Week.)

M. FRANCIS COULSON
Assistant Superintendent
Adams County Schools

Schools affect the lives of everyone. We have direct interest in education of either our own children, grandchildren or the children of our neighbors. The quality of education is something which we can personally affect, perhaps more directly than any other aspect of community management. The good citizen, therefore, will not ignore this opportunity to engage in "democracy at its best."

Money alone will not produce modern, effective schools, but in general the school with more money provides a better program than the school with less money. The average cost per pupil in 1957-58 was \$320 for the nation; the lowest state average was \$158 and the highest \$482. The average cost per pupil in Pennsylvania was \$329; the average for Adams County was \$308.

It is interesting to examine more extensively the picture of school finance in Adams County. The total expenditures of all school districts of Adams County during 1957-58 amounted to \$3,128,743. The breakdown of this amount includes the following:

General control	\$ 125,356
Instruction	1,775,695
Auxiliary agencies	297,504
Operation	174,230
Maintenance	83,361
Fixed charges	114,086
Debt Service and Rental	327,962
Capital outlay	230,549

Receipt Sources
Receipts to cover these expenditures in all the school districts of Adams County totaled \$3,063,959. The source of these receipts include the following:

Real estate tax	\$ 819,038
Per capita tax under Act 679	117,915
Per capita and other taxes under Act 401	167,149
Tuition	54,424
State appropriation	1,735,473
Other receipts	169,960

A beginning balance of \$266,875 was available to the school districts on July 1, 1957. This balance added to the total receipts of \$3,063,959 was sufficient to cover the total expenditures of \$3,128,743 and leave a balance on July 1, 1958, of \$232,374.

As one examines the sources of the above receipts for the school districts of Adams County it is evident that only 36% of the

Honored By Optimist Club

Donald Kime, chairman of the selection committee for the Gettysburg Optimist Club, is shown as he presented awards to "outstanding youths" to David Slusser, Littlestown R. 2, and Miss Patricia G. Oyler, 230 Springs Ave., at a "Youth Appreciation Week" program held by the Optimist Club Thursday evening at the Dutch Cupboard.

current receipts were derived from local tax sources; 57% received from state appropriations, and the remaining 7% from tuition and other sources. Throughout the United States this ratio is reversed with about 57% of school funds received from local sources; about 40% received from state sources, and about 3% received from federal sources.

This data pertaining to receipts and expenditures for education in Adams County may sound alarming but we must recognize that an adequate program of education for 9,000 students in Adams County has become big business. This real product—the boys and girls—are being trained to become our future citizens. They will assume their role of citizenship in our communities, our state, our nation and our world. Inadequate training of these young people will affect our civilization during the future decades.

Cites Responsibility

As a citizen in our democracy—in Adams County—it should be our responsibility to become familiar with our schools. Our intensive consideration of our schools must be based upon the conviction that quality education is of highest priority in our society today. Several questions that should become our constant concern may include the following:

1. Are the program and facilities of your school system adequate?
 2. Is your school program adequately serving the elementary school children, the junior-high school students and the senior-high school students in your community?
 3. Are the educational needs of older youths and adults adequately served by your public schools and/or other community agencies?
 4. Is your school system staffed with a competent and certified staff of teachers?
 5. Are the teaching materials and equipment adequate in your school system?
 6. Do the buildings and equipment in your school system adequately provide an environment for quality education?
 7. Is the administrative and supervisory staff of your school system adequate to insure a productive educational program?
 8. Are your schools adequately financed?
 9. Is citizen interest in your community adequately supporting the schools?
- Your public schools belong to you. You can improve them. Your schools are as good as you and other citizens in your state and community want them to be.

Mamie Eisenhower Known As Ideal Hostess; Activities As "First Lady" Are Reviewed

By FRANCES LEWINE
WASHINGTON (AP) — Mamie Eisenhower, who will be 63 Saturday, has managed to keep a private life of her own during the seven years she has been in the White House.

By the time her birthday rolls around next year, her successor

as first lady will have been named.

From all indications, Mamie won't be sorry to relinquish the role.

Unlike Predecessor
She has not sought, as Eleanor Roosevelt did, to be a national figure in her own right.

Nor, like Bess Truman, has she openly evidenced dislike for the social and public appearances that go with being first lady.

She has kept her own public appearances to a minimum. She never makes speeches, she holds no news conferences or press interviews and accepts few outside invitations.

During the Eisenhower administration, the traditional White House social season has been whittled down and finally was eliminated entirely this year.

Ideal Hostess
For the entertaining she has done, Mrs. Eisenhower has gained a reputation as a gracious hostess at 1600 Pennsylvania Avenue. She charms guests and visitors with her ready smile, just the right inquiry, pleasantries and flattering comment.

Beyond these public and semi-public appearances, though, the world of Mrs. Eisenhower is private. Secrecy and security have been employed through the years to give Mrs. Eisenhower some privacy. Everyone from chauffeurs to chefs at the White House is under a no-talking rule.

Vacation Preference
Mrs. Eisenhower has found a private and secluded vacation spot at Elizabeth Arden's Maine Chance health and beauty resort near Phoenix, Ariz. She went there in February 1958 and 1959 and may go again early in 1960.

Mrs. Eisenhower's only other trips without the President have been to Denver to visit her mother, Mrs. John S. Doud, 81. Her most frequent companion—traveling and at home—is her only sister, Frances (Mike) Moore, wife of businessman-broker, ex-Army officer George Gordon Moore.

"Up To Mrs."
The President at a news conference this summer said any decision about taking an apartment in Washington when he leaves office would be up to Mrs. Eisenhower. He suggested "You had better get some of your lady reporter friends to go and talk to her about it."

A lady reporter tried, but couldn't get through by phone to Mrs. Eisenhower. But Mollie Parnis, New York dress designer who has provided clothes for Mrs. Eisenhower since pre-White House days, says she gets through without any trouble.

As a customer, Mollie Parnis finds Mamie the "easiest, kindest, most considerate, and least temperamental."

DEVOTION TO PLANTS SEEN ON DECLINE

By HAL BOYLE

NEW YORK (AP) — Sidewalk scrawls of an Alley Aristotle: People don't generally plant enough things.

One can plant things and create thereby his own garden of hate and love.

The opportunities are endless. Let's start with hate. Suppose there is a human weed and neither you nor he can escape the fact he is a weed. You know it and he knows it.

Proper Procedure

What you do is plant a flower in a pot. You name the flower after him, and trust as it blossoms he will also smell as sweet. Actually once you plant, hate usually turns to hope. The man becomes the bloom.

There are people, however, who have a sterner garden of remembrance and never forget or forgive. They are firm friends and firm haters.

I have seen a man go out in the dark and defile a large tree as a symbol of his enmity. I have seen other men nurse a seedling as a growing monument to a friend gone by.

Recalls Devotee

One time, years ago, I sat with a man in the gathering dusk and watched through a dimming lace of leaves.

"I have a name for each of these trees, and each is a friend. When I see them they are her. We are together," he said.

A number of the trees stood for people who were actually dead, but as he touched their shaggy bark he felt an oaken renewal.

I looked at the silhouette of those trees against the background of eternal hills and felt I was a stranger to the man and his idea. But I never forgot what he said.

There is a druid nearness in us all to things we do not know — a forest surprise.

Our closest neighbors are majesty and ignorance.

One who plants in hate faces the eternal peril of reaping love.

The United States produces about two-thirds of the peaches in the world.

Bullets Face Toughest Grid Foe At Buffalo On Saturday Afternoon

The ricocheting Bullets of Gettysburg College will be out to score a direct hit Saturday afternoon when they travel to Buffalo, N. Y., to take on the Buffalo Bulls, defending Lambert Cup champs. Game time is 1:30 p.m.

Buffalo (6-1) is currently fourth in the Lambert Cup ratings and fifth among small colleges of the nation. Gettysburg will enter the contest with a 4-3 record after dropping last Saturday's encounter to Hofstra 18-6. The Bulls have defeated Drexel, Albright, Muhlenberg and Lafayette while losing to Bucknell and Lehigh. The Bulls' only loss came at the hands of Bucknell 26-21. They have conquered Temple 28-14, Cortland 68-2, Baldwin-Wallace 27-18, Western Reserve 22-2, Youngstown 16-7 and Rhode Island 41-6.

Hit By Injuries
The biggest problem facing the Bullet coaching staff will be injuries. Rich Davidyock, after missing three weeks because of a knee ailment, will probably be once again sidelined. Another questionable starter will be tackle Mike Pacilio. Davidyock's understudy, Terry Looker, Camp Hill, is another question mark, which means both starting fullbacks are doubtful performers. Should Looker not be able to play, Haas will go with Rich Bainbridge. If Pacilio is unable to play, John Rose will be the starting tackle. Jim White, guard, who missed last week's game, will return to action Saturday.

Coach Haas said, "Buffalo is unquestionably the strongest team on our schedule. They're a good, big ball club with two fine passers and at least three outstanding running backs. They have a well-balanced attack combining fine running with excellent passing. They are extremely good in punting, probably the best punting team we'll face all year."

Buffalo Starters
Coach Dick Offenhamer will send the star passing duo of Gordon Bukaty and Joe Oliverio against the Bullets. Running will be handled by halfbacks Willie Evans, George Maue and Bill Broga and fullbacks Tom MacDougal and Gerry Gergley. The Bulls' forward wall will consist of: Ends Carley Keats and Bob Adams; tackles, Berny Fagen and co-captain, Sam Sanders; guards, Stan Kowalski, co-captain, and Joe Shifflet, and center, Ray Paulini. Bill Brogan, one of the east's top punters, will do the kicking for the Bulls.

Coach Haas will shake up his starting lineup which will probably include ends, Lance Butler, Harry Richter and Harvard Hicks; tackles, Jim Hess and Mike Pacilio or John Rose; guards, Frank Temme, Bob Coble and Jim White; center, Tom O'Malley; quarterback, Earl Little; halfbacks, Eddie Lucas, Ernie Veltan and Redding Hicks, and fullback Terry Looker or Rich Bainbridge.

This will mark the first meeting between the two schools.

The Bullet squad left by bus this morning for Buffalo.

PITTMAN AND WATSON LEAD AT LAFAYETTE

By ED TUNSTALL
Associated Press Sports Writer
LAFAYETTE, La. (AP) — Two golfers who have tasted little of victory's elixir led the way into today's second round of the \$15,000 Lafayette Open. But their margin was such that it could easily vanish by sundown.

Young Jerry Pittman of Tulsa, Okla., 22-year-old one-time Texas collegiate golf king, and veteran Bob Watson, 36-year-old home professional from Ardley-on-Hudson, N.Y., each posted 61 Thursday to share first-round honors.

Their showings clipped five strokes off par over the 6,700-yard Oakbourne Country Club course that took a real beating. No less than 25 of the 138 entries posted scores better than the regulation 71.

Fear Rudolph
Billy Maxwell of Odessa, Tex., one of the big money winners of this year's tour, and hard-luck Walker Inman of Eglin Air Force Base, Fla., trailed the top pair at 67, while three others were another stroke back at 68.

Between them, Pittman and Watson had won about \$2,000 this year. By contrast, Maxwell has won about \$20,000, although he has yet to enter the winner's circle of the 1959 tour.

Most observers feared Mason Rudolph of Clarksville, Tenn., grouped at 68 with Jerry Magee of Toronto, Canada, and Jim Ferree of Crystal River, Fla.

Defending champion Jay Hebert of Sanford, Fla., was one of 12 knotted at 70. National Open champ Billy Casper of Apple Valley, Calif., had a first round 69, but both are expected to be close to the top at the end of Sunday's final 18 holes.

MAY EXTEND NUCLEAR BAN

WASHINGTON (AP) — The United States probably will make a limited extension of its ban on nuclear weapons testing if negotiations with the Soviet Union for an international test prohibition continue to make progress.

This was indicated Thursday by Secretary of State Christian A. Herter at a news conference. Herter said in response to a question that "I would personally favor the extension, if it were a matter of weeks only while we were still talking."

He added that he had serious doubts about any longer suspension beyond Dec. 31, the current expiration date.

In taking this line he appeared to be reflecting U.S. concern over the possibility that if tests are delayed too long without the protection of an international inspection system the Soviets may secretly resume their own testing and get ahead of the United States in nuclear weapons development.

Negotiations for an international agreement have been under way at Geneva for more than a year among the United States, Britain, the Soviet Union, the United States and Britain stopped testing when the negotiations started. The Soviets did so a few days later.

PHILADELPHIA (AP) — Joseph T. McNulty, 53, a member of the Philadelphia Inquirer sports department since 1942, died Thursday after a long illness.

Navy Will Seek Quality Gridders

ANNAPOLIS, Md. (AP) — Navy plans to revise its football recruiting program and shift the emphasis from quantity to quality. Asst. Athletic Director E. E. (Rip) Miller said Thursday night.

"We've got to cut down on the number of boys we've been working on and concentrate harder on those top level ones we know can make the grade scholastically as well as athletically," said Miller, who directs Navy's recruiting program.

The Middies have a 3-4-1 record so far in Wayne Hardin's first year as head coach. They have games remaining with George Washington and Army.

SATURDAY HAS WEALTH OF BIG GRID CONTESTS

By JACK CLARY
Associated Press Sports Writer
The scrambled college football picture should get a little clearer this weekend and set up some terrific showdown battles next week.

But these showdowns are going to be preceded by a lot of tugging and pulling tomorrow as teams like Louisiana State, Northwestern, Wisconsin, Texas, Georgia and Washington battle for prime bowl spots or conference titles, and in some instances both.

The weekend gets off to a rousing start tonight with South Carolina (5-2) meeting Miami (4-3) in the Orange Bowl, and Atlantic Coast Conference member North Carolina State (1-6) travelling to Los Angeles Coliseum to face UCLA (2-3-1).

Syracuse Vs. Colgate

Buried beneath the wealth of top games Saturday is the nation's No. 1 team in the current Associated Press poll, Syracuse, who faces upstate New York rival Colgate, with a 1-6 record. Syracuse (7-0), a prime bowl participant, tops the nation in offense, defense and scoring.

Texas (No. 2), with its 8-0 mark, can nail down at least a tie for the Southwest Conference title, and put a foot in the door as the Cotton Bowl host, if it gets by tough Texas Christian (5-2). Just in case Texas fails, Arkansas, ranked 20th, could take the conference lead with a victory over Southern Methodist.

Third-ranked LSU, 7-1, shorn of its top rating last Saturday by Tennessee's 14-13 victory and relegated to a contender for the Southeastern Conference and Sugar Bowl race, faces weak Mississippi State (2-5).

Other Big Game

The SEC will have two other whopping good games as 5th-ranked Mississippi (7-1) gets its chance at Tennessee (5-1-1) (No. 9). LSU Ole Miss and Tennessee are tied for third in the SEC with 3-1 records. The runnerup, eighth-ranked Auburn, 6-1 overall and 4-1 in the SEC, is ineligible for a post-season bowl, but hopes to derail first place Georgia's title ambitions. A Georgia (7-1) victory gives it the SEC title with a 6-0 record, and the inside to the Sugar Bowl.

Things are lively in the Big Ten too, with Northwestern (No. 6) tied for the conference title with Wisconsin (No. 7) after losing to the Badgers last week. Wisconsin, 6-1 in the conference, meets tough Illinois on upset-minded Michigan State. A slip by either spells disaster in the march to the Rose Bowl.

Other Sections

The other two members of the top ten, Southern California (No. 4) and Penn State (No. 10) have formidable opposition. Southern Cal (7-0) meets Baylor. Penn State (7-1) knocked from the unbeaten ranks by Syracuse last week but still prime bowl material, takes on tough Holy Cross (6-1).

With Far West Big Five Southern Cal meeting an outsider, runner-up Washington (2-1) hopes to advance its Rose Bowl hopes against California (0-2). Southern Cal is banned from post-season competition by the NCAA.

2-HORSE SPILL UNAVOIDABLE

LAUREL, Md. (AP) — What caused that two-horse spill in Wednesday's \$100,000 Washington, D. C. International at Laurel? "Entirely unavoidable," said Steward Joseph Flanagan Thursday after viewing films of the race won by Bald Eagle, the U. S. entry ridden by Manuel Ycaza.

Flanagan said the movie showed that Venezuela's Pensilvania, ridden by Gustavo Avila, cut sharply in front of Australia's Vogel, with Billy Camer up, at a point where a stretch of training track joins the main Laurel turf course.

The training section was fenced off for the race but Flanagan said Pensilvania apparently insisted on following the route with which he had become familiar during workouts and banged into the fence.

"Horses are creatures of habit," Flanagan explained.

Neither Camer nor Avila was seriously hurt in the mishap, which occurred on the clubhouse turn.

Delone Applies For Membership In South Penn

Delone Catholic High School of McSherrystown has made formal application for membership in the South Penn Conference.

The Rev. Fr. William R. Lyons, Delone principal, made the announcement of the application today.

Middletown, Hershey and Mechanicsburg wind up affiliation with the conference at the conclusion of the present football season. Biglerville and Cedar Cliff become new members with the start of the coming basketball season.

Delone's application is expected to be one of the main items when the conference holds its next meeting Wednesday, December 2, at the Peace Light Inn.

BAYLOR IS FAR FROM PETTIT'S CAGE RECORD

By THE ASSOCIATED PRESS

Elgin Baylor, the former All-America at Seattle, is setting a torrid scoring pace with Minnesota in the National Basketball Assn., but he still has a long way to go to better Bob Pettit's feats just a year ago.

Pettit, a former All-America at Louisiana State, almost single-handedly rewrote the NBA record last season with his performances for the St. Louis Hawks. He set six records (1) most points scored with 2,105; (2) the highest average 29.2; (3) most field goals scored 719; (4) most free throws attempted 879; (5) most free throws scored 667; and (6) most 50-point games in a season, 3.

Has One Record

So far Baylor has set one NBA mark with his record 64 points against the Boston Celtics last Sunday. In addition he leads in total points with 398 in 11 games on 149 field goals and 100 free throws.

Baylor came up with 33 points Thursday night against Detroit, but it wasn't enough to keep the Lakers from losing to the Pistons 107-93 in the first game of a doubleheader at New York's Madison Square Garden before 9,247.

The Syracuse Nats blew a 25-point lead in the second game against New York but forged ahead again in the final minutes to beat the Knicks 113-104.

Wilt Chamberlain tossed in 55 points to lead the Philadelphia Warriors to a 124-116 win over Cincinnati in the other NBA game of the night.

NAGLE LEADS GOLF TOURNEY

SYDNEY (AP) — Ken Nagle, Australia's open and professional champion, shot his second straight sub par 70 to take the second round lead in the 54-hole Sydney Open Golf Tournament today with a total of 140.

Playing against a strong international field preparing for next week's Canada Cup matches in Melbourne, Nagle took a one stroke edge over Stan Leonard of Canada, Bernard Hunt of England and Peter Thomson of Australia, all tied at 141.

The final round will be played Saturday over the 6,748 yards, par 36-36-72 Kensington golf course which has been swept the last two days by drenching rains.

Thomson, four-time winner of the British Open and co-tournament favorite with South Africa's Gary Player, finished strongly for a 68, the best score of the tournament to date.

Player, his putting touch evasive, shot a 70 to tie at 143 with Jim McInnes of Australia.

'Missing Hunter' Safe; Dog Gone

MEADVILLE, Pa. (AP) — Fred Stevenson and his Beagle hound went hunting Thursday in a wooded area of northwestern Pennsylvania.

Stevenson, about 72, of Lakewood, Ohio, failed to return at 5 p.m. to a home where he had been staying. A search party was formed.

Spot Stevenson
Five hours later one of the party spotted Stevenson walking along a country road. As it turned out, Stevenson wasn't lost.

His first question was, "Have you seen a beagle hound around? I've been looking for him all night."

At last report the hound was still lost.

'13' Is Key Number For Youth Today

CHICAGO (AP) — Today, Friday the 13th, is the 13th birthday of Gayle Lee Kraft of suburban Bellwood.

Gayle's name totals 13 letters. The last four digits of her telephone number, Linden 4-1741, total 13. She lives at 131 Rice Ave., an address that starts with 13 coming or going.

Tonight she'll have 13 youngsters as guests at a voodoo birthday party.

Salvation Is The Unmerited Gift Of God

REV. WILLIAM W. RITTER

Retired Minister

Saved By Grace (Titus 3:4-6)

Paul the Apostle was writing to Titus, whom he calls in Chapter 1:4 "Mine own son after the common faith." V. 5 gives the reason for the Epistle, "To set in order the things that are wanting." The physical, moral and spiritual condition of the people of Crete was at a very low ebb. Paul points out in V. 3 that the people were "foolish, disobedient, deceived, serving diverse lusts and pleasures, living in malice and envy, hateful and hating one another." He had already in Chapter 1:12 branded them as "always liars, evil beasts and slow bellies."

Thus you can imagine the wickedness among these Cretans. They were deceived by sin and Satan; by the grossness, superstition and ignorance of their own hearts. This indictment could be true of many or our so called Christians living in our day and generation. The verses which form our text inform these Cretans, just what must be done before they can be delivered from this horrible estate into which they had fallen. Paul points out that deliverance is possible. But only through the saving grace provided by and executed by divine dispensation. This brings us to the thought of the day, salvation by way of grace.

"Saving Grace"

The Author of this saving grace is none other than God. Chapter 2:11 reveals this, "For the grace of God that bringeth salvation hath appeared to all men." Thus you see that this saving grace originated in the great, big, throbbing and living heart of God. Now, what do we mean by the word grace? To the early Greeks, grace was a most precious word. It represented all that was most winsome in personal loveliness. It stood for that nameless fascination of beauty which was not remote but close and warm and irresistibly attractive. Grace means to us, a warm open-hearted, free-handed, spontaneous generosity, evidenced where there is no claim of merit or hope of reward. The grace that brings us salvation is the unmerited gift of God to you and me. Yes, God is the Author of this grace which alone can save.

The Medium of this saving grace is none other than our Lord and Savior Jesus Christ. V. 6 reads, "Which He shed on us abundantly, through Jesus Christ our Savior."

John the Baptist had this same belief. John 1:29, "Behold the Lamb of God that taketh away the sin of the world." Again Peter said in Acts 4:12, "Neither is there salvation in any other, for there is none other name under heaven given among men, whereby we must be saved." Jesus Himself said, John 14:6, "I am the way, the truth and the life. No man cometh unto the Father but by me." Thus it is very clear that our blessed Lord is the medium through which this saving grace flows.

The Holy Spirit

The Administrator of this saving grace is none other than the Holy Spirit. V. 5 tells us, "Not by works of righteousness, which we have done, but according to His mercy. He saved us, by the washing of regeneration, and the renewing of the Holy Spirit." Thus the Holy Spirit regenerates us. By His power we turn away from sin. We face about and now have a newness of life. There are new purposes, desires, hopes, fears, joys, pleasures and peace. Then again the text says there is a renewing of the Spirit. Here is sanctification. It is regeneration developed and extended. It is the continuous work of the Holy Spirit setting us apart from the world. The Holy Spirit keeps on purifying, permeating and actualizing the whole life. God is the Author, Jesus is the Medium and the Holy Spirit is the Administrator of this saving grace which alone can save.

Fanny J. Crosby wrote: "Some day the silver cord will break, And I, as now, no more shall sing; But, Oh, the joy when I awake Within the palace of the King. When I shall see Him face to face And tell the story saved by grace."

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

USW RESUMES TALKS AFTER THANKSGIVING

NEW YORK (AP)—The United Steelworkers Union plans to resume contract talks shortly after Thanksgiving with aluminum, copper and can companies.

But prospects for a break in the basic dispute with the steel industry remain bleak.

The steel union's 171-member wage policy committee voted unanimously Thursday to renew the 116-day steel strike if no agreement is reached by Jan. 26.

That's the expiration date of the 80-day Taft-Hartley injunction that sent half a million steel workers back to plants across the nation. The injunction went into effect last Saturday.

"Old American Try" Referring to a hope expressed by Secretary of Labor James P. Mitchell that both sides could settle their dispute before then, the union president, David J. McDonald, said:

"I know of no foundation for such a statement. Of course we'll try again — we're certainly going to give it the old American try."

McDonald said no date had been set for resuming talks with steel producers.

Aluminum and can workers have remained on the job beyond contract expirations. Most of the copper workers have been on strike for three months.

The deadline in steel has particularly affected aluminum negotiations, since that industry traditionally follows the contract pattern set in steel.

IKE ENJOYING GOOD WEATHER

AUGUSTA, Ga. (AP) — The weather is mild, the golf course is in wonderful shape, and President Eisenhower settled down today to enjoy both.

For the moment, no pressing tasks of government are intruding on the Chief Executive. No major ones are in sight before next week.

So for the next few days Eisenhower can count with a measure of confidence on getting in what he came here for—his favorite sport on his favorite course and the stockpiling of some rest for a taxing overseas tour next month.

In 19 days, the President will visit three continents and the capitals of 11 nations and will travel 20,000 miles. The trip to Europe, Asia and Africa starts Dec. 3.

Before that, the budget and legislative programs that go to Congress in January have to be

Gas Househeating Units Keep Home Comfortable With No Furnace Tending

A warm house without furnace tending? At this time of year that sounds almost too good to be true. But it is true—in homes equipped with automatic gas househeating units.

Town and Country Gas Service, Inc., with headquarters along the Bigville Rd., two miles north of Gettysburg, is area headquarters for gas home heating equipment. Icy winds and winter storms will not interrupt gas service, for gas is piped underground direct to the burner in the home. And such an arrangement eliminates fuel bins, tanks, ask cans and furnace tending.

No Ordering, Waiting For Fuel
Gas is constantly available. Set the thermostat for comfortably regulated temperatures in the house. Gas does the rest for the entire heating season. Ordering and waiting for fuel to be delivered become a thing of the past. With the current trend toward light colored carpeting, a clean fuel is essential. Gas comes into the home ready to burn and leaves no dirt, soot or film on rugs, drapes and curtains. This means less sweeping and general housekeeping for the homemaker.

Central heating by gas is possible through radiant heating in the floor, panel heating in the wall, grills flush with the floor and regular radiators or convectors. These systems employ warm air, hot water or steam as determined by individual preference and ease of installation. Units are also available that humidify as well as heat the air in the winter and that provide cool air conditioning in the summer months.

Noiseless Heating Units
Noiseless gas househeating units are available in a variety of colors that blend harmoniously with game or utility room decor. Exceptionally compact this year, they allow for a good deal of welcome extra space in the home.

Basic considerations to insure satisfactory gas heating installations as reported by the American Gas Association are:

Select substantial equipment, laboratory tested.
Size it accurately to insure adequate heat for the coldest days prevalent in the area.
Provide for proper heat distribution, adequate combustion, air and venting.
Make sure the furnace or boiler is properly insulated to prevent wasteful heat leakage.

Town and Country Gas Service is equipped to display all types of gas appliances for the home as well as home heating units for both natural gas and LP gas. Prompt service is assured to customers.

LOS ANGELES (AP)—Thirty passengers—mostly sailors—escaped unhurt from a burning bus early Thursday after it hit an automobile on the fog-shrouded Santa Ana Freeway, 12 miles southeast of Los Angeles.

The California Highway Patrol said the bus struck the rear of the auto, then burst into flames. Two passengers in the car were injured slightly.

Fix Registration Fee For Trailers

HARRISBURG (AP)—Owners of house trailers will be required to pay a \$12 annual registration fee under a new state law.

The measure was one of a package of new laws signed Thursday by Gov. Lawrence regulating ownership and operation of house

trailers, mobile homes and office trailers. One of the new laws would prohibit operation of trailers on the highways while they have occupants in them. Another will require a special handling permit for pickup of mobile homes and office trailers from dealers, as now required for house trailers.

ARMY PRIVATE CHANGES SEX, GETS MARRIED

MIAMI, Fla. (AP)—A former Army private—whose sex was changed by Danish doctors—became a bride in Miami a month ago, it was learned today.

She now lives a happy newlywed as Mrs. Ralph H. Heidal in a Miami apartment. Her former identity as Charles Earnest McLeod came to light in a copyrighted story in the Miami Herald.

The Baptist pastor who performed the ceremony on Oct. 11 was shocked.

"I'm going to call my doctor and get some tranquilizers," said the Rev. A. H. Stainback. "I wonder what the deacons will say."

There was no apparent law violation in the marriage. State Atty. Richard Gerstein said he knows of nothing under Florida law that would make it a crime.

He's 'Charlotte' Now
Florida law does not require previously unmarried persons over 22 to furnish birth certificates in order to get married. Therefore, there was no indication of Mrs. Heidal's original sex.

Mrs. Heidal, who now calls herself "Charlotte," is 34. Her husband is 36.

Of the operation, Mrs. Heidal said "All I have done is merely correct a mistake. It is a tragic social problem. My psyche has always been female. I always thought, felt and reacted like a woman."

She was reared in Dyersburg, Tenn., the daughter of Charles McLeod Sr.

STUDENT FACES THEFT CHARGES

LANCASTER (AP)—A Franklin and Marshall College sophomore actor has fouled out of his role as the conniving basketball coach in the play, "Tall Story."

Lancaster police Thursday charged thespian Henry H. Duckman, 19, of Stamford, Conn., with larceny for a series of thefts at a F. and M. dormitory.

Also facing the same charges is Wayne Yeager Dupler, 19, of Philadelphia.

Duckman was taken into custody Wednesday, three hours before curtain time at a Little Theater production, sponsored by the Green Room Club.

The student group didn't learn of his arrest until 90 minutes before the play went on. A substitute played the role with the advantage of loud prompting.

Police said a search of Duckman's car turned up a trophy and telephone reportedly stolen from Gettysburg College and the missing raincoat of another Franklin and Marshall student.

The investigators charged Dupler with a theft of \$68 on October 2 and with taking a \$25 ashtray from a student lounge.

Florida Executing 2 Negro Raptists

RAIFORD, Fla. (AP)—Two Negroes convicted of raping white women go to their death in Florida's electric chair today after losing last minute pleas for commutation of their sentences to life imprisonment.

The condemned men are Willie George City, 22, and John Edward Paul, 24.

City pleaded guilty to rape of a white widow at her home at Largo. Paul was convicted of raping a 47-year-old grandmother at Clearwater.

on the advice of a friend whom he refused to identify.

The fall-out over the tract area where Lichens lives included chunks of wood and earth up to 15 pounds over a 600 yard radius. No one was hurt, but one home owner who found a 7-pound piece of wood on his roof called police, who are investigating.

Lichen has no stump, and no comment.

APPEAL RULING ON MANDATORY BIBLE READING

PHILADELPHIA (AP)—The suburban Abington Township School Board is appealing a ruling that mandatory Bible reading and recitation of the Lord's Prayer in Pennsylvania's public schools are unconstitutional.

The school board filed a notice of appeal to the U.S. Supreme Court in U.S. district court here Thursday.

A special three-judge federal court handed down a decision Sept. 1 ruling the practices unconstitutional.

Action For Children
The special court decision was on a suit brought by Edward L. Schempp, Roslyn, Pa., on behalf of his three children.

In its appeal the school board asked the U.S. Supreme Court to decide whether the federal courts have jurisdiction in the matter since the Pennsylvania Supreme Court has not yet interpreted or determined the constitutionality of a section of the public school code.

The particular section requires the reading of at least 10 verses of the Bible and the Lord's Prayer every school day.

The federal court stayed enforcement of the ban pending the appeal.

Rookie Cop Averts Hitting School Bus

REDLANDS, Calif. (AP)—A rookie policeman chasing a fleeing car at 100 miles an hour suddenly faced a deadly choice:

Hit a loaded school bus, stopped to unload, or smash almost head on into a truck.

He picked the truck.

Officer Injured

Officer Thomas H. Dickson, 26, was seriously injured in the collision Thursday.

With siren screaming and red light on, Dickson said, he had chased a car several miles.

Then the police car and truck arrived at the halted school bus at the same time. With the road too narrow to pass, the officer hit his brakes and swerved into the oncoming truck.

None of the children was hurt.

et books with orders, were returned and the books were then given to the finance and publicity committees. Spoons were purchased by the club and were used at the coffee social which preceded the business. 4 BURNED IN
HOSPITAL FIRE

COLUMBUS, Ohio (AP) — Four persons suffered burns and 18 patients of one ward were evacuated Thursday when fire broke out in the offices of Doctors Hospital here.

The fire, which sent smoke hundreds of feet into the air and visible in downtown Columbus, was caused by an accident during a repair job. Three workmen were welding a copper pipe in a small space above a false ceiling of the first floor, and above the telephone switchboard room. Fumes from a can of adhesive material caught fire from a torch, the torch overturned and kept spreading the fire.

Eighteen children in a pediatric ward on the second floor, ranging from 6 to 16 years of age, were moved to a newly completed wing and a fire door was closed to keep the flames from spreading. Some of the patients had to be carried.

BALTIMORE, Md. (AP)—John Malloy has picked a good audience for his speech on "remembering names of new acquaintances." Malloy will be guest speaker Monday at the Arbutus Lions Club. The meeting notice lists the speaker as "John Malloy."

GM ASSEMBLY LINES IDLE; LACK STEEL

DETROIT (AP) — All auto assembly lines in the vast General Motors empire stood silent today, still by lack of enough steel to turn out even one more complete passenger car.

Production of autos ground to a halt Wednesday night at the world's largest manufacturing firm. Shutdown of GM's last operating assembly line was the climax of a series of halts caused by the national steel strike.

The shutdown will last until enough steel can be obtained and parts processed to fill supply lines at assembly plants. GM has declined to estimate how long this might be but industry sources expect the shutdown to last up to four weeks.

Miss 80,000 Units Weekly
Normally, at this time of year GM's five car-making divisions would be turning out more than 80,000 units a week.

Most GM lines have been down for 10 days and production was curtailed even before then by parts shortages. GM has laid off 220,000 hourly employees out of a normal work force of 320,000.

Ford Motor Co. is operating on curtailed work weeks but plans to step up production by the end of November. Ford makes almost half of its own steel.

Chrysler Corp. also has cut back production but will build all lines of cars through at least next week. The firm has laid off 5,850 hourly workers.

RUSS 'MINDS' VISITING U. S.

COLUMBIA, Mo. (AP)—Twelve young Soviets are visiting Columbia this week and "The Maneater," student newspaper at the University of Missouri, says they are making monkeys of American collegians.

"American student minds here met the Russians minds and were defeated," the paper reported.

"The Maneater" said this was an example of exchanges between the Soviets and their hosts:

Typical American question: "Why does the Moscow government prevent the republics from seceding?"

Answer: "Why was the American Civil War fought?"

Calder Farm is located on Rt. 45 just south of the Parkton turn-off of the Harrisburg Expressway (Rt. 111), approximately half-way between York, Pa., and Baltimore.

Due to the loss of his barn by fire on another farm, Mr. Michael is forced to sell as quickly as possible his entire herd of milking Guernsey cows. They are mainly fall fresheners and have been on D.H.I.A. test. Mr. Michael purchased the herd of the late Philip C. Turner who was an enthusiastic Guernsey breeder and furnished many 4-H Club boys and girls with show winners, and his cattle stood well at field days and fairs. Most of the cattle selling are descended from that herd.

Cranberry Episode Shows U.S. Power For Safe Foods

By JOHN BECKLER
WASHINGTON (AP) — The events that have raised the cranberry from the bog to the nation's headlines spotlight the power of the government in guarding the nation's food supply.

For half a century this power has existed, but "the cranberry episode," as Secretary of Welfare Arthur S. Flemming calls it, marks one of its most sweeping applications.

Formal court actions, filed this week in San Francisco, asked seizure of two small shipments — a total of 14 tons — of allegedly contaminated West Coast cranberries. But the incident is affecting, at least temporarily, an entire crop.

Checking On Berries

There were these developments: 1. Ocean Spray Cranberries, Inc., a major grower cooperative, says it is moving quickly to assay crops grown in Massachusetts, Wisconsin and New Jersey, about which no question was raised, as well as those in the West Coast. It hopes to clear uncontaminated cranberries of suspicion in plenty of time for Thanksgiving Day Dinners. Expanded forces from the Food and Drug Administration also were checking the berries.

2. The Army and Navy suspended use of cranberries grown in Washington and Oregon, but will permit use of those it can prove

grew elsewhere.

Demand Explanations

3. The New Jersey Farm Bureau said it will seek government payments to farmers for sales they have lost as a result of the controversy.

4. The National Grange, meeting in Long Beach, Calif., demanded that federal officials appear and explain why the crackdown was ordered.

The episode had its origins in 1957 when some cranberry growers adopted a new weapon in their unending war against weeds.

Chemical Truces Found

It was Amino-triazole (pronounced a-meen-o-try-a-zole), a synthetic chemical killer that was still undergoing some tests by its manufacturer and had not yet been registered with the Department of Agriculture.

After the cranberries were harvested, inspectors for the Food and Drug Administration found one-third of the berries grown in Oregon and Washington showed traces of the pesticide. So did a small amount from Massachusetts.

Meanwhile, the manufacturer, American Cyanamid Co., conducted tests to see if amino-triazole would have any dangerous effects if absorbed by humans. The long, painstaking studies were finally completed last May.

the chemical, developed cancer of the thyroid. The concentrations fed to the rats were much stronger than those found on the tested berries. No tests were made of the chemical's effects on human beings, but the conclusion, based on the experiment with rats, was that amino-triazole might be a cancer-causing agent.

The basic legislation under which the government acted goes back to 1906 when the original Food and Drug Act was passed. But in the cranberry episode the FDA is relying mainly on an amendment passed by Congress in 1958 which forbids the use in goods of any chemical that produces cancer in test animals — as the amino-triazole did in rats.

COLLEGE PREXY WOULD NOT HIRE VAN DOREN

EASTON, Pa. (AP)—A college president says that Charles Van Doren's participation in TV quiz show rigging must be dealt with on two levels: public and personal.

On the personal level, said Dr. Roald Bergethon, president of Lafayette College, the attitude should be one of human understanding and forgiving sympathy. But on the public level, the president told a student convocation Wednesday "We must share uncertainty, and perhaps new guilt, in seeking action to make effective in our time the inescapable element of life which we conceive divine justice and judgment."

Dr. Bergethon said that he would not hire as a teacher "a man who publicly betrayed the code of intellectual integrity which above all else he was bound to communicate."

Columbia University accepted Van Doren's resignation as an English professor after Van Doren told a congressional committee of his transgression in winning \$129,000 on "Twenty-One."

PREVENTS STICKING

When you use a pastry canvas and stockinet cover over your rolling pin make sure you rub flour down into the meshes of the cloth on both the canvas and stockinet cover. This should keep dough from sticking.

NOW YOU CAN AFFORD TO HEAT YOUR WHOLE HOUSE ELECTRICALLY

Here's why more and more families in this area are turning to BERKO Glass Electric Radiant Heat:

YOU CAN'T BEAT ELECTRIC RADIANT HEAT FOR COMFORT!

You know how warm and good the sun feels streaming in through a window. Berko radiant heat works just like that. Its heat is gentle, even heat that can provide great warmth when you need it on the coldest of days or hurry-up heat to chase the chill of an autumn morning. Unlike other heating methods, with Berko there are no "hot spots" or rushes of dried, parched air, followed by drafts of cold air. The air is quiet and fresh — good to breathe and kind to the skin.

HEAT IN SECONDS, WHEN AND WHERE YOU WANT IT... AND ONLY WHERE YOU WANT IT!

Berko radiant heat is instant heat! Seconds after you turn it on, its gentle warmth fills the room. No stoking the furnace or waiting for the heat to come up. What's more, each unit is individually controlled by its own thermostat. This means you can comfortably heat the rooms you want while rooms that are not in general use can be kept at lower temperature levels.

NO FURNACES, NO DUCTS, NO EXPENSIVE INSTALLATIONS! Just think! No unsightly storage tanks, no ashes to lug; no pipes, ducts, radiators or chimneys needed. Berko's sleek, thin panels mount simply and inobtrusively on wall, baseboard or ceiling. All that's needed is to connect them electrically and you're set!

YOU CAN RUN OUT OF FUEL BUT NOT ELECTRICITY! You don't have to worry about fuel trucks getting through snow-blocks or washed out roads when you heat with Berko. Your heat is as near as the switch! Always dependable, always clean and never a care about costly repairs or breakdowns. Berko units have no moving parts to wear out or break down.

YOU CAN PUT A BERKO PANEL ANYWHERE! Wherever you need heat you can have it... throughout the house, the barn, attic, tool shed, storm cellar! And, if your present heating system is inadequate or if you have cold rooms, one or two Berko heaters can easily be added to solve the problem... you'll be amazed how little it costs!

Legislature May Dodge Job Of Raising Money To Help State Schools

HARRISBURG (AP) — Sen. James S. Berger, Republican floor leader, today endorsed a growing move to pass a 55-million-dollar increase in state aid to schools and leave over to 1960 the job of financing it.

"No more money is going to come out of this Legislature," he said in an interview. "Next year, it might be a different story."

Berger made the statement after Gov. Lawrence Thursday signed into law the \$1,403,785,688 General Appropriations Bill.

The huge spending authorization law carries \$527,885,133 for general aid to schools, \$42,415,000 for help in school construction, \$41,435,561 for pupil transportation and \$26,000,000 as a bonus for merged school districts.

Tax Bills In 1960
The figures approximated Gov. Lawrence's requests but don't provide for the extra state aid demanded by organized teachers, school directors, school administrators and PTA groups.

Berger said sentiment was growing to enact an additional school subsidy bill in the 1959 session, minus taxes to finance it, because it is questionable the 1960 Legislature can deal with school subsidies.

But there would be nothing to stop the 1960 session from passing tax bills to pay for the added aid. A new Constitutional amendment limits sessions in even-numbered years to the passage of taxes and appropriations only.

Same Lawmakers
Berger also pointed out that it would be the same group of lawmakers faced with the school tax problem next year. It was a reference to a practice in the past of increasing state aid for schools for years in the future without providing the money to pay for them.

The governor, however, has taken the position that he won't sign any spending bills unless they are accompanied by taxes to finance them.

In signing the General Appropriations bill, he expressed some misgivings about Republican cuts. He singled out as inadequate ap-

propriations for public assistance, school subsidies, labor mediation services, public health services, general hospitals, forestry camps for juvenile delinquents, small business promotion, tourist promotion, industrial development and urban renewal.

Approves Spending Bills
Lawrence also approved the \$8,820,000 spending proposal for industrial development and \$5,000,000 for urban renewal.

"I have approved these bills because it is essential that the state government get on with its functions without any further delay," he said in a statement. He added that "whatever shortcomings exist in the measures I signed certainly cannot be blamed on" the Democratic members of the House and Senate.

To Study Blue Cross
The House and Senate are in recess until Monday.

House Developments:
Driver's License Fees — It refused, 51-82, to go along with the Senate on an increase in driver's license fees to \$2.50 a year. The present fee is \$1.

Blue Cross Insurance — It approved unanimously a study by its research agency, the Joint State Government Commission, of the rising costs of Blue Cross insurance. The study still needs approval of the Senate.

Education — It agreed to three separate studies of educational problems: cost of scholarship aid, beginning school age and higher education in general.

Absenteeism — An attempted showdown on absenteeism in the 206-member House failed when the members present voted against it, 122-35.

Mines — Lawrence sent back to the Legislature two of the new mine inspection bills recommended by the Knox Mine disaster investigating committee on the grounds they would cost more money than is available.

Ike's Plane To Make "Dry Run" Of Route

ROME (AP)—The U.S. Air Force Boeing 707 jet that will carry President Eisenhower on his 11-nation tour next month arrived here Thursday with some 40 presidential aides making advance arrangements for the good-will journey.

The plane will make a run along the President's itinerary, enabling the pilot and crew to familiarize themselves with the route and the airports.

Runaway Car Gives Man Surprise Swim

WORCESTER, Mass. (AP) — Anders Laderman, 72, took a swim in Coes Pond but he didn't intend to.

Laderman was repairing his car Wednesday when it started to roll downhill in his yard on the shore of the pond. He jumped into it in an attempt to halt it, but it plunged into six feet of water. He got a door open and swam ashore. A tow truck hauled the car back to shore.
